

CDR Group Planning To Put Barnsley on the map

CDR Group are pleased to announce the successful award of a data capture contract a bit closer to home – by Barnsley Metropolitan Borough Council. This contract is for the capture of 50,000 Planning Application records from 1976 to the present, from old paper records, microfiche and scanned documents. Barnsley MBC are long-established clients of CDR, having been involved with the supply and implementation of MapInfo® Professional™ software and services for deploying geographic information within the Council. CDR's Browse-A-Map solution was installed in December to deliver the Council's Local Development Framework maps to the public from the Barnsley website. CDR are also providing a range of training courses over the next couple of months in the MapInfo software application, from Entry and Advanced Level, to programming with MapBasic.
