

See it faster. Solve it sooner with MapInfo Pro v16

The latest release of the world's premier desktop mapping and GIS application just got simpler, faster and smarter. Enhanced in so many ways, the newest version of MapInfo Pro software lets you visualise data and capitalise on those insights in less time than ever. It's never been easier to be more precise, productive and successful.

New interactive interface for thematic mapping

On demand access to global geocoding included

Improved support for OGC standards, including WMTS

Faster, more intuitive Layout Designer

Significant raster GIS improvements with MapInfo Pro™ Advanced and much more

The full experience

The free trial also includes the highly performant raster GIS capabilities of MapInfo Pro Advanced. Our latest release takes performance further, with improved visualisation, analysis and productivity enhancements:

Support for creating grids from multiple files (including LiDAR/.LAS datasets)

Additional capabilities in the powerful Grid Calculator

New grid interpolation methods

You will also be able to try the additional Bing mapping capabilities that are included with our Premium Services offering.

Download your free trial today.
